INDI ORGANIC LEMON TONIC

Intense citric aromas from lemon and yuzu together with freshness from the Persian lime and the subtle perfume of the lemon blossom stand out in the nose. Its refreshing – slightly sweetened notes, the diversity and balance from the different citric ingredients endure on the palate, making it perfect as a mixer or enjoyed on its own.

PRODUCTION METHOD

Handcrafted from natural ingredients. All botanicals are macerated individually in 16Ltr glass pots during 6 to 8 weeks, and gently distilled 'au-bain-marie' in 1820's copper pot stills.

GOLD MEDAL

International
Organic Awards 2020

INGREDIENTS

Carbonated water, cane sugar**, lemon juice* (from concentrated), citric acid, extracts of: kalamansi lime peel*, japanese yuzu peel*, Seville orange blossom*, quine tree bark** and natural quinine flavouring.
